Dear Dr. Ash,

Thank you for sharing your amazing workshops with our "para-mazing " members. I thank you for offering your services. Your approach is awesome, and you have truly reached our members in a most unique way. You have aided in them becoming "Para-Mazing Classroom TEAM Partners". We cannot thank you enough for this. Thank you so much for being so willing to present to the members of the Bermuda Union of Teachers. The attendees have commented that this was truly a one of a kind experience. They loved your passion. They were engaged with your multi-sensory interactive approach coupled with your songs and stories. They want you to return for future workshops and a summer session at Bermuda College. I cannot express enough thanks and will be in touch.

The B.U.T. believes that education provides the building blocks for any successful nation, and we thank you for assisting us in improving our craft.

Thanks for your sincere commitment to helping our members in their quest to enhance their skills and their professionalism! ☺

Thanks for everything!!

Yours Sincerely,

Shannon James
